The screenshot displays the 'Browse Devices' interface of the IBM Watson IoT Platform. The page features a dark-themed sidebar on the left with various navigation icons. The main content area has a top navigation bar with tabs for 'Browse', 'Action', 'Device Types', and 'Interfaces'. A right sidebar shows the user's profile and an 'Add Device' button. The central section is titled 'Browse Devices' and includes a 'Diagnose' button. Below this, a text block explains that the table shows a summary of added devices, which can be filtered or searched. A search bar is present above the table. The table itself has columns for 'Device ID', 'Status', 'Device Type', 'Class ID', 'Date Added', and 'Descriptive Location'. It lists two devices, both marked as 'Disconnected'. At the bottom, there is a pagination control showing '1 of 1 page'.

Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
