

## DEVELOP A PYTHON SCRIPT

Date	17 November 2022
Team ID	PNT2022TMID47535
Project Name	Personal Assistance for senior who are self-reliant

### SCRIPT:

```
a=int(input())
b=int(input())
c=a+b
print ("The sum is", c)
```

The screenshot displays the PyCharm IDE interface. The main editor window shows a Python script with four lines of code: `a=int(input())`, `b=int(input())`, `c=a+b`, and `print ("The sum is", c)`. The script is named `main.py` and is located in a project named `main`. Below the editor, the Run console shows the execution output: `C:\Users\HP\PycharmProjects\IBM\venv\Scripts\python.exe C:/Users/HP/PycharmProjects/IBM/main.py`, followed by `The sum is 12` and `Process finished with exit code 0`. The Run console also shows a green checkmark icon, indicating successful execution.
